EDUCATION

- **Northwestern University** Evanston, IL
Transfer Student; Bachelor of Arts (B.A.) in Computer Science; GPA: 3.83/4.0 *Sept. 2018 – Dec. 2020*
 - **Awards:** Engineering Honor Roll (Fall '18, Winter & Spring '20), Grace Hopper 2019 Conference Scholarship
 - **Courses:** Algorithms, Agile Software in JavaScript, Engineering Entrepreneurship, Computer Networking, Mobile Health, Human Computer Interaction, Databases, Artificial Intelligence, Programming Languages
- **Vassar College** Poughkeepsie, NY
Bachelor of Arts (B.A.) in Computer Science; GPA: 3.88/4.0 *Aug. 2016 – May 2018*
 - **Awards:** Grace Hopper 2017 Conference Scholarship, Varsity Swimming Team
 - **Courses:** Object-Oriented Programming in C++, Statistics, Data Structures & Algorithms in Java, Cognitive Modeling in R, Functional Programming in Scheme, Discrete Math, Linear Algebra, Computer Organization in C
- **Horizons School of Technology — Coding Bootcamp** San Francisco, CA
Fellowship Recipient; <10% acceptance rate; Full-stack Web Dev with JavaScript/ES6 & React *May – Aug. 2017*

EXPERIENCE

- **Lyft** San Francisco, CA
Frontend Web Software Engineering Intern — Basemap Team *June 2020 – Aug. 2020*
 - **Guidance Debugger:** Built and owned debugger tool for Lyft's internal map that displays guidance directions and routes. Deployed frontend and wrote tech spec. Used Typescript, React Hooks, Jest, Cypress, DeckGL.
- **Affirm** San Francisco, CA
Software Engineering Intern — Affirm Anywhere Team *Sept. 2019 – Dec. 2019*
 - **Affirm Android Mobile App:** Built Wishlist feature in team & Merchant Browser V2 app as standalone Android engineer. Deployed and owned entire feature with frontend, tracking, tech spec. Used Kotlin, Gradle, Dagger.
- **PayPal** San Jose, CA
Software Engineering Intern — PayPal Credit Web Team *June – Sept. 2019*
 - **Net Promoter Score (NPS) Survey:** Deployed PayPal's 1st NPS survey. Built frontend, tracking, docs, & unit tests. Integrated web modal into internal code library for global use. Used React, JavaScript, & Redux.
- **Bank of America** New York, NY
Software Engineering Intern — Innovation Lab *June – Aug. 2018*
 - **Financial Market Chatbot:** Deployed chatbot and web app. Used Python, JavaScript, Flask, Jinja, & REST.

LEADERSHIP

- **Teaching Assistant:** Data Structures & Algorithms (N.U., '19), Functional Programming (2x: Vassar, '17 & '18)
- **Research Assistant:** Using machine learning to measure mental health on social media (Chancellor Lab, N.U. '20)
- **Lead Developer, Studio Lead:** Led team in Develop & Innovate for Social Change club. Built webapp for nonprofit.
- **Co-President:** Led V.C. Computer Science Club (>60 ppl). Founded Vassar's 1st hackathon & interviewing program.

FEATURED PROJECTS

- **WearEver¹:** Built e-commerce fullstack webapp for our startup (>50 sign-ups) w/JavaScript, React, & Redux.
- **Deep Learning Chatbot²:** Wrote how-to guide & used Neural Machine Translation, Python, & TensorFlow.

SKILLS & AWARDS

- **Relevant Skills:** Android Mobile, JavaScript/ES6 (*Proficient*), TypeScript, React, React Hooks, Redux, HTML, CSS, Less, Kotlin, Java, C++, Python, SQL, Git, Node.js, LaTeX, Sketch, Agile development, Mandarin Chinese (*Fluent*)
- **Recent Awards:** Vassar GHC Scholarship ('17), N.U. GHC Scholarship ('19, '20), AnitaB.org Grace Hopper Scholar ('18), Rewriting the Code Fellow ('18, '19), Impact Labs Coding Fellow ('18), O4U Tech Conference Scholarship ('20)
